01 Experience

Oct. 2023 – Current

Bayer / Front-end developer & UI designer (Pàù consultant)

At Bayer Antwerp (Monsanto), I configured MeVisio dashboards with JSON to support data-driven decision-making and expanded my role to include UI design and front-end development. I now lead the design of internal applications, enhancing UI and usability through Figma and PrimeNG.

Aug. 2021 – Feb. 2023

Present Online / Founder & web developer/designer

I founded Present Online as a freelance web design and development service, creating responsive websites for entrepreneurs, SMEs, and organizations.

Oct. 2022 – Sept. 2023

Upthrust / Web developer/designer

As a web developer and designer, I collaborated with teams to achieve project goals and delivered high-quality, user-friendly UI designs. I developed front-end interfaces for clients such as MyWay, Toyota, and Lexus.

Dec. 2021 – Jan. 2023

KdG Hogeschool / Peer tutor JavaScript & freelance dev

As a temporary teaching assistant, I helped first-year students grasp the basics of JavaScript, focusing on syntax, DOM manipulation, and jQuery.

-

I developed websites and an appointment tool for KdG Hogeschool's FabLab and Biolab, enhancing their digital presence and efficiency.

02 Skills

Figma +++ | HTML +++ | CSS +++ | Sass +++ | TailwindCSS +++ | JavaScript ++ | KirbyCMS ++ | React ++
Next.js ++ | TypeScript + | Strapi + | Shopify +

03 Education

2019 – 2022 | Bachelor / Multimedia & creative technologies

Completed Multimedia & Creative Technology at KdG Hoboken, excelling in web development, web design, SEO (technical), and UX/UI. (Grade: Great Distinction)
